Prior art documents discussed:

Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

See Continuation Sheet

Part III.

- ☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability. Part II above.
☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

(Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed:

The examiner's amendment was agreed to and authorized by Mr. Amici in order to clarify claims 25 and 26. Specifically, in order to clarify the phrase "second" jettable composition in claim 25, the claim was amended in order to require that the ink jet ink system comprises ink jet ink composition and second jettable composition. Further, claim 26 was amended in order to clarify that the ink jet ink system comprises a substrate. Support for the amendments is found, for instance, in paragraphs 8-10, 56, and 65 of the present specification.

Additionally, the examiner and Mr. Amici discussed the phrase "shades thereof" in claim 6. Mr. Amici stated that the phrase was not unclear given that the phrase was a term of the art and simply refers to different shades or hues of the pigment color, such as, for instance, Pigment Red 189 which is a Yellow Shade Red as disclosed in paragraph 21 of the present specification.
